St. Joseph's Parish 90th Anniversary

The Parish of St. Joseph in Saskatoon celebrated the 90th Anniversary of its founding and the building of the church building, November 4th, 2018. Bishop Mark presided at the liturgy followed by a social in the Parish Hall. Wayne Squire, who has done the historical research out of a personal interest, outlined that the parish community came together (sufficient signatures to form a parish), designed, financed and built the church building all within the twelve months in the year 1928. Everyone sat back and wondered how they could accomplish such a feat. We know that we could not build this building today in such a short time frame.
